RE: Docket No. W-03514A-08-0047 and Docket #W-03514A-07-0386 – Payson Water Company, Inc.

To Whom It May Concern,

I am a Complainant in the matter regarding Payson Water Company, Inc., ("PWC") being Docket No. W-03514A-08-0047. I am in receipt of a Notice of Filing Grant of Summary Judgment and Payson Water Company moves to dismiss the complaint.

No matter what the decision is or was regarding ownership of the property of the Elusive Wells that does not negate the facts that Payson Water Company has yet to fulfill the obligations that were filed in my complaint.

1. Providing adequate services of water and storage to supply all of Elusive Acres & Geronimo Estates subdivisions.
2. Providing this service to the extent that the water moratorium that has been in place for 20+ years goes away and all homeowners are entitled to a water meter if they want one.

And according to the documents I received "Exhibit 2" it clearly states that Payson Water has demonstrated it is entitled to summary judgment that it is entitled to access to Elusive Acres and the Well System. NOT THAT THEY OWN IT! Summary Judgment is Granted in Part! This indicates to me that this issue is not resolved and will continue to the courts necessary to proceed with this matter. So it is not over until the fat lady sings of which I don't think the fat lady is singing yet.

The open claims regarding the services to be provided by Payson Water Company is not resolved! This Company continues to deny and ignore its responsibility to the subdivisions needs. WATER and Adequate Services of Water is the issue that needs to be resolved.

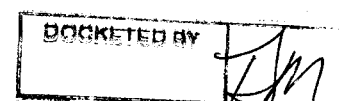

The Company has done nothing to improve the system and/or provide adequate services and storage to all of Elusive Acres and/or Geronimo Estates. I request that these dockets remain open until such time as Payson Water Company can provide adequate documentation that storage, supply's and moratorium have been resolved.

Respectfully,

Rebecca M. Sigh
